

YESYFORMA EUROPA'S QUALITY POLICY

The goal of **YESYFORMA EUROPA** is to become a benchmark in the removable plaster ceiling sector by standing out from our competitors for the quality of our products. This quality will be achieved through:

- Consistent manufacturing processes and the application of research and innovation to the functional improvement of existing products.
- The development of new products using new technologies that add value to user experience.
- Permanent cost savings by streamlining production and business processes to make them increasingly competitive.
- Obtaining and marketing products at a competitive price compared to other companies in the sector.
- Systematic control of market risk in order to select, as far as possible, a portfolio of committed customers, of recognised quality and solvency.

To achieve this, **YESYFORMA EUROPA**'s management commits to complying with the requirements agreed with the customer, as well as with the legal and regulatory requirements, and to continuously improve the effectiveness of the Quality Management System with the active participation of all company employees.

The means to ensure continuous improvement is the establishment and review of quality objectives related to the contents of this policy and compliance with them by the corresponding members of **YESYFORMA EUROPA**.

This quality policy is conveyed and understood by all **YESYFORMA EUROPA** employees and stakeholders through the communication channels set forth and is reviewed regularly in order to continuously adapt it.

Zaragoza, 20 December 2021
